EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
2. Authorization for this examiner's amendment was given in a telephone interview with Mark S. Svat on April 1, 2005.

The application has been amended as follows: **In the claims:**

Please cancel "software program for a" in claim 7, line 1.

Please replace "software program" in claim 7, line 16, with -- fault clearance system --.

Please replace "software program" in claims 8, 9, and 10, line 1, respectively, with --fault clearance system --.

Allowable Subject Matter

3. Claims 1-22 are allowed.

The following is an examiner's statement of reasons for allowance:

The current invention and Armington (2002/0104293), the main reference, are directing to providing video and textual instructions to the user.

Armington is directed in providing instructions to a packaging system, wherein the packaging system provides packaging instructions related to a part or parts to be packaged and instructs a cushioning conversion machine to produce a cushioning material.

The current invention is specially directed in providing instructions for correcting a fault condition in a printing system.

Armington discloses most of the claimed invention including at least in part a plurality of video objects, a plurality of text objects, and video window, and a text window.

Furthermore, Armington discloses a text window for displaying one or more textual instructions, wherein when one of the textual instructions is selected an associated video (package or segment) will be displayed. But Armington fails to describe a fault operation system in which displaying a linked textual instruction when a corresponding video segment is selected in said video window. That is, Armington does only describe a selected textual instruction will display associated video segment but not vise versa, Thus, Armington doe not discloses a bi-directional linkage system as claimed in independent claims 1, 7 and 13.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

CONCLUSION

5. Any inquiry concerning this communication or earlier communications from the Examiner should be directed to Tadesse Hailu, whose telephone number is (571) 272-4051. The Examiner can normally be reached on M-F from 10:00 - 630 ET. If attempts

Art Unit: 2173

to reach the Examiner by telephone are unsuccessful, the Examiner's supervisor, John Cabeca, can be reached at (571) 272-4048 Art Unit 2173.

6. An inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Group receptionist whose telephone number is (703) 305-3900.
